

# 17014AR-LED

## 6" IC Airtight Remodel Led Housing

### Product Description

Molex base allows for quick, snap-in connection of NICOR® D-series and SD-Series LED downlights. Suitable for residential and commercial applications. Suitable for direct contact with insulation. IC rated and airtight.

#### Housing

Washington State Energy Code approved to meet restricted airflow requirements  
Airtight housing limits exchange of air between ceiling plenum and heated/cooled areas  
Molex to Ideal® adaptor whip available (Not required for DLR56)  
5 3/4" height allows use in 2" x 6" joist construction

#### Junction Box

Listed for through-branch circuit wiring and includes several 3/4" knockouts  
Supplied with three push-in wire connectors
