

20339

1-Lamp Outdoor Light

Product Description

The 20339 Series linear vapor tight fixture is a perfect choice when dirt, dust, humidity and cold temperatures are present. This one-lamp T8 fixture is an economical choice and is ideal for use in utility lighting, water treatment plants, equine arenas, parking garages, stairwell lighting and more. Linear vapor tights have a wide spread light output as well as a high color rendering capacity due to the configuration of fluorescent lamps enclosed in compact gasketed structures.
