Fire-rated Recessed Light Enclosure

Product Information

Architects, specifiers and installers can easily maintain the integrity of fire-rated ceilings for one hour with this enclosure for recessed lights.

FEATURES

- Fits both 16" and 24" on-center applications; one size fits most applications
- Attaches quickly with drywall screws, saving time and labor
- Features four knockouts for wiring flexibility with easy access from any direction.
- Provides sound reduction
- Maintains vapor barrier integrity to meet new airtight building codes
- Maintenance free
- Can be used on either interior or exterior applications
- Compatible with both non IC-rated or IC-rated fixtures
- Maintains air space even when using blown-in insulation to eliminate light fixture cycling
- Affixes directly to the structure
- No product modifications required; reduces risk of incorrect product installation or movement during or after construction

INSTALLATION

Using this fire-rated enclosure, recessed lights can be installed in a fraction of the time that it would take to hand-build an enclosure. Once you fasten the four screws, your enclosure is ready to go. Simply install your light and you're on to the next one. You'll reduce time and labor costs while ensuring compliance to building codes.

SPECIFICATIONS

- Flanges: 2 5/8" wide for easy mounting.
- Material: Corrosion-resistant metal.
- Internal Dimensions: 20-1/8" L x 12"W x 9-1/2" D
- Stackable and packed 6 per case for easy shipping and handling
